

ATMO^{tex}

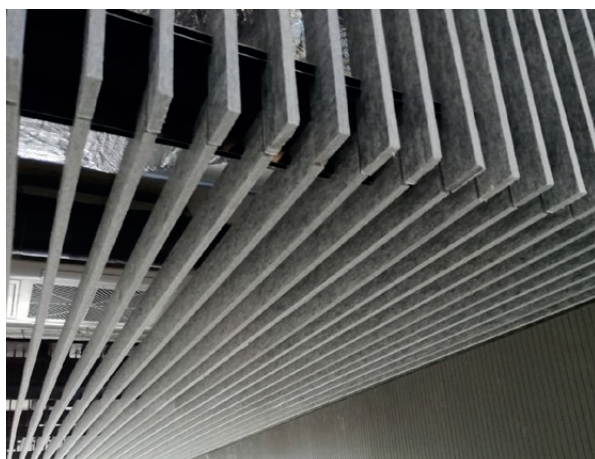

EASYline

Slat width:	10/20 mm
Slat height:	50/100 mm
Center-to-center distance:	50/100 mm
Slat length::	2,400 mm
Density:	1600 gr/m ²
EN 13501-1:	B-s1, d0
Felt colour:	grey, other colours on request
Mounting rail:	aluminium
Colour:	black
Height:	40
Length:	2,500 m
Total weight::	about 2 kg/m

ATMO^{tex} EASYline

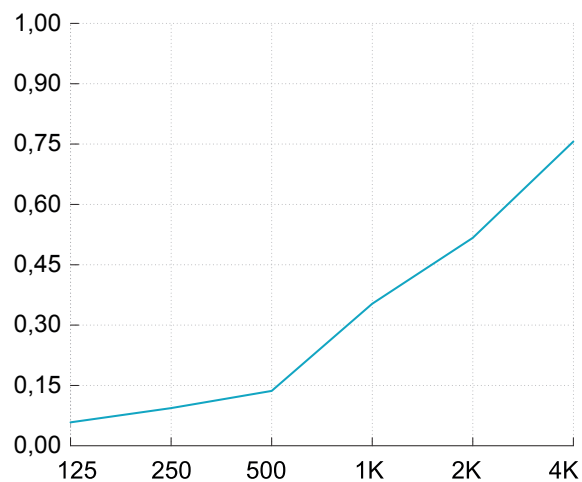

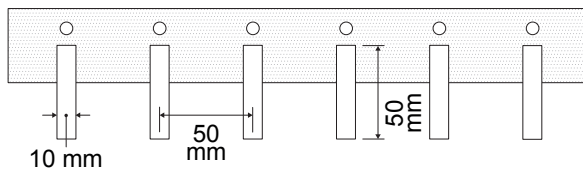

Linear Acoustics, perfect in design and execution.

ATMO^{tex} EASYline is a ceiling system made of acoustically effective felt slats. With its highly absorbent qualities it is ideal for quick and easy self-assembly. The prefabricated slats are inserted into the sub-construction of the system where the unique punching technique ensures that the slats are securely held in place without further installation steps. The adjustable hangers can easily be attached to your standard sub-construction.
